Employment: slides versus new tax grouping

Average annual sector totals | same cleaned firm-years, 2015-2022

Slides: 37 NACAM branches

New: 16 section-based tax groups

Slide statistics recreated on common axes. Yearly totals or firm means averaged equally across years. Natural logs.
Left retains the slide labels, including the superseded NACAM interpretation. Right uses Rev.1.
Colors/symbols retain the original broad-sector scheme. Asterisks mark analytical groupings/combinations; 005 in B has B/C/H boundaries.
Analytical assignments: 005/006 to B; 009 to A (including processing); 021 to C; 029 to D; 037 to L. T covers 97 only.
Missing and negative values excluded separately by measure. Ranks differ across panels; rows do not align.
